Claim Rejections - 35 USC § 102

Claims 1-14 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Anderson et al.

See Figs. 1, 14a and 14b. See side walls defined by frame members of 22, 24, elements 30, and elements 28, 30, first front corner post and first rear corner post (frame members 22, 24), and rails 28. See Figs. 14a, b, which shows several angled rails on only one of the two rails on each side. Consequently, multiple rails with an intermediate rail being a "middle" rail are present. See also the crossbar, met by another frame member of elements 22 or 24.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive. Applicant states that the rails 28 are orthogonal to the electronics modules. However, the electronic modules are not claimed, i.e. they are only functionally recited. Since no module has been recited and there is no inherent or defined structure thereof, the structure of the rack is not limited by references thereto. The Anderson et al rack is capable of supporting "electronic modules" in any fashion or orientation. Regarding the cross bars, as stated in the first action and repeated above, such is met by another elongate, flat portion of element 28.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3634

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
